

FIRST POSITION · TOP TWO STRINGS

E & B String Notes

Learn every first-position note on the high E (1st) and B (2nd) strings — naturals and sharps — then read them on the treble staff.

WHERE

First position

Index finger covers fret 1. Open strings count too. Stay near the nut — no shifting yet.

WHICH STRINGS

E & B

Thinnest string is high E (1). Next is B (2). These two sit side by side for melody work.

FULL POSITION

Ten notes

Naturals plus sharps (#) on frets 0–4. A sharp raises the pitch one fret / half step.

2ND STRING · B

B string map

B OPEN · 0	C FRET 1 · ①	C# FRET 2 · ②	D FRET 3 · ③	D# FRET 4 · ④
----------------------	------------------------	-------------------------	------------------------	-------------------------

One finger per fret: 1→fret 1, 2→fret 2, 3→fret 3, 4→fret 4.

1ST STRING · HIGH E

E string map

E OPEN · 0	F FRET 1 · ①	F# FRET 2 · ②	G FRET 3 · ③	G# FRET 4 · ④
----------------------	------------------------	-------------------------	------------------------	-------------------------

Same fingering pattern as the B string — one string higher, same fret logic.

TREBLE STAFF · FIRST POSITION ON E & B (NATURALS + SHARPS)

B 0·B	C 1·B	C# 2·B	D 3·B	D# 4·B	E 0·E	F 1·E	F# 2·E	G 3·E	G# 4·E
B STRING					HIGH E STRING				

READING TIP

Fret under the note

Labels like 1·B mean fret 1 on the B string. Open is 0. Use them until the staff feels automatic.

LEFT HAND

One finger per fret

Fingers 1–4 cover frets 1–4. Sharps sit on frets 2 & 4. Press just behind the fret wire.

NEXT PAGE

Three practice songs

Each melody uses both strings. Count aloud, then play. Slow and clean beats fast and sloppy.

Three Practice Songs

1 • Hot Cross Buns

Cross from high E down to the B string. Say the note names before you pick.

2 · Ode to Joy

Stay in first position. Watch the string changes between D (B string) and E (high E).

3 • Two-String Study

Neighbor notes across strings. Aim for even tone when you change from B to high E.
