

FEEL IT • FIND IT • PLAY IT

E & B String Notes

Meet ten notes on the top two strings — naturals and sharps (#). Stay near the nut (first position), then find each note on the staff.

Tip: Find the two skinny strings — then match the dots!

HOME BASE

First position

Your pointer finger lives on fret 1. Open strings (no fingers) count too!

TOP TWO

E & B

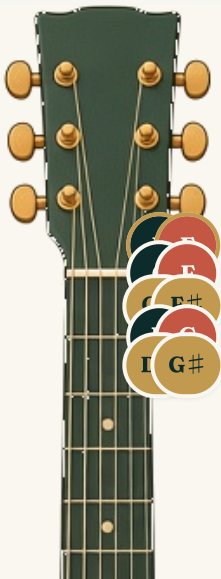

Skinniest string = high E. Next door = B. They're melody neighbors.

ALL OF THEM

Ten notes

Naturals **and** sharps (#) — frets 0–4 on each string. Sharp = one fret higher.

ON YOUR GUITAR • TOP TWO STRINGS

FIND THE STRINGS

Skinniest two on the right

- High E** — thinnest string (far right). Notes E F F# G G#.
- B** — next door. Notes B C C# D D#.
- Open** = ring the string with no fretting finger.

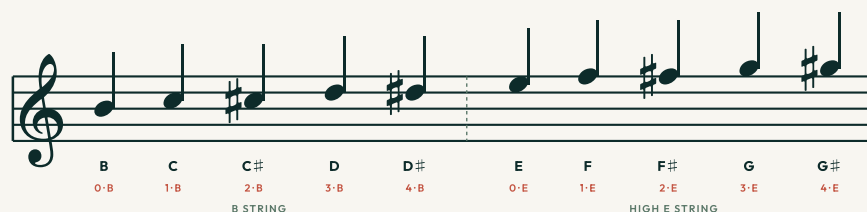

COLOR KEY

Read the dots

● High E ● B string ● Sharp (#)

Pointer → fret 1 · middle → 2 · ring → 3 · pinky → 4. Stay near the nut!

SAME NOTES ON THE STAFF

BOTH STRINGS · COUNT TO 4

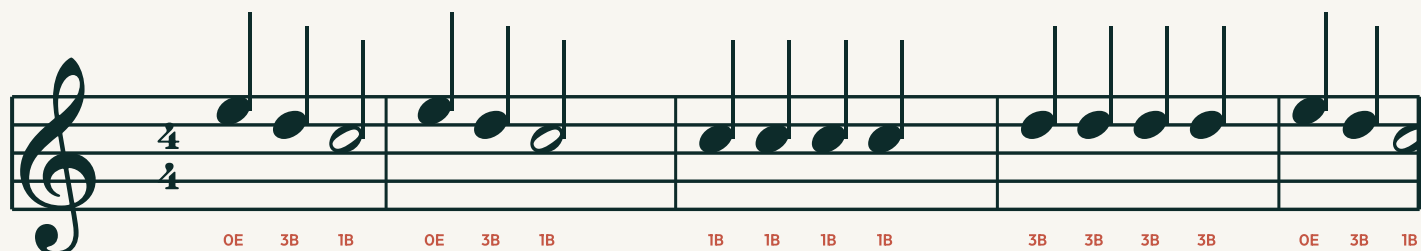

Three Practice Songs

Quarter notes get one clap. Half notes get two. The little codes under the notes (like OE) tell you which string and fret.

1 • Hot Cross Buns

Warm-up song · C D E

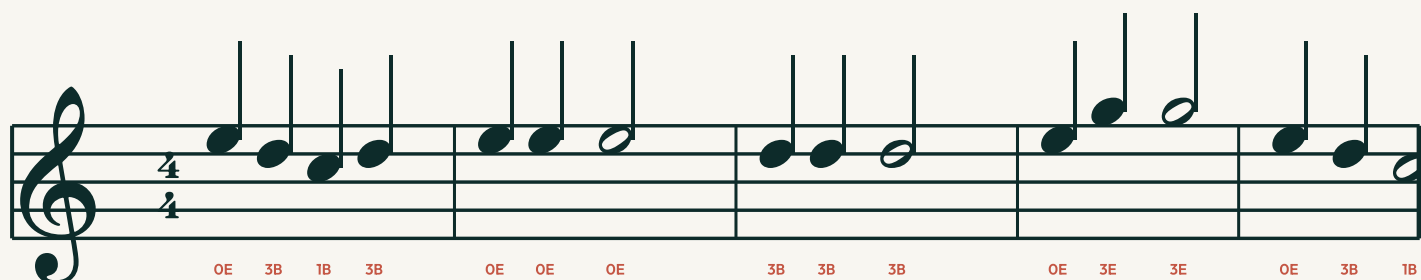

Climb down from high E to the B string. Say E · D · C before you play!

2 • Mary Had a Little Lamb

Classic · C D E G

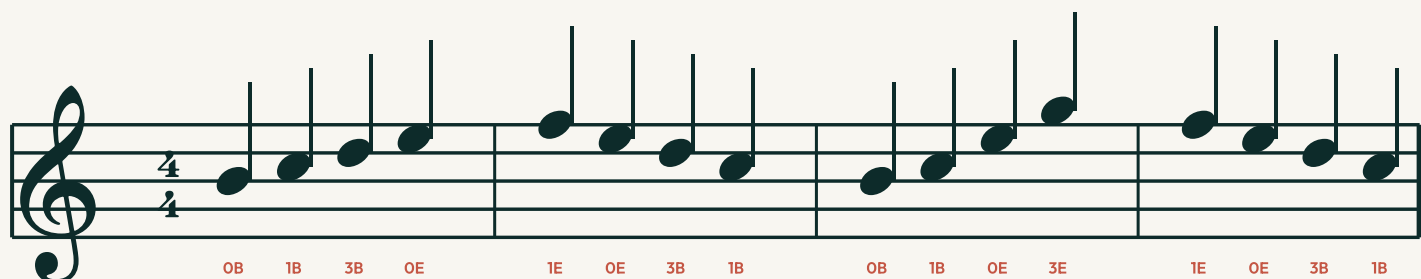

You already know the tune — now find it on two strings. Watch for the high G!

3 • Rain Drop Song

Original · all six notes

Notes drip up and down the two strings — like rain on a window. Keep every drop even.

0 / 1 / 3 — open, fret 1 (pointer), fret 3 (ring)

2E / 2B — fret 2 sharp (middle finger) · F# or C#

4E / 4B — fret 4 sharp (pinky) · G# or D#
